

THE SAME OR DIFFERENT

THE OBJECTIVES OF OUR PROJECT

During this project students will collaborate with their peers from other countries to find out the similarities and difference of the life of an average European teenager, to develop their creativity, to train their communication and self-presentation skills. They will be encouraged to think critically and to ask questions about what they find out from other participants of the project. They will create their own material using a variety of ICT tools. The students will present, learn about different aspects of the life of a teenager, as well as present their places of living, regional dishes and some interesting facts that they would love to share with their peers.

The First Meeting

The screenshot shows a project page from europa.eu. At the top, there's a navigation bar with links like 'Introduction', '1.1 Let's get to know each other', and '1.2 Consents'. Below this, there's a section titled 'Logo of the project' which includes a 'Go to discussion' button and 'Page options'. A text box says: 'Here are the propositions of the project logo. Soon we're going to vote for the best one.' To the left, there's a sidebar with some rules and a 'Padlet' sharing. On the right, there's a video call interface showing four participants: Kumru Toğrulca, Swietłana Kupis, Michela Serafini, and Milena Tyska. A large circular watermark at the bottom of the screen says 'The same or different'.

We had our first meeting with Polish, Turkish and Italian partners. We got to know each other and negotiated about the details of the project.

*-Students introduced themselves and share them on Padlet and read and learn about their partners.They got surprised when they saw similarities in their lives. They turned their sharings into an e-magazine.
